PABNA POLYTECHNIC INSTITUTE 2018- 2022

Diploma in Civil Engineering

PROGRAMMING HERO 2025 - 2026

Web Development

LANGUAGE:

- English
- Bangla

CAREER OBJECTIVE

Seeking a remote Frontend Developer position where I can leverage my expertise in React.js, Next.js, and authentication systems to build secure, scalable, and user-centric web applications.

PROJECT

BOOKFLOW – ONLINE BOOK BORROWING PLATFORM

- Developed a digital library system featuring book searching, filtering, and borrowing logic.
- Managed data persistence using MongoDB and built a responsive UI with React and Next.js.
- Optimized database queries for fast search results and real-time availability updates.

KEENKEEPER – MODERN FRIENDSHIP MANAGEMENT APP

- Built a full-stack application using Next.js and Tailwind CSS for seamless user experience.
- Integrated Better Auth for secure user authentication and Recharts for data visualization.
- Implemented complex logic for managing social connections and user activity tracking.

THE DRAGON NEWS – RESPONSIVE NEWS PORTAL

- Created a dynamic news application using React with integrated user authentication.
- Used MongoDB to store news articles and user data, ensuring high availability.

EXPERIENCE

Self-Taught Full-Stack Journey

- Dedicated 1000+ hours to mastering the MERN stack through intensive project-based learning.
- Successfully transitioned from a structural engineering background to a technical role through self-motivation.
